Food Transitioning Guidelines

This is a guideline on how to transition from different diets, back onto Advance. For most dogs with mild, short term issues, the 7 Day Transition protocol should be all that is needed.

For those dogs that have had more long term problems, or that develop issues with the 7 Day transition, the 14 day Transition is more appropriate.

7 Day Transition

Day	Ratio (volume)
Day 1	Advance - 25% Original Diet - 75%
Day 2	Advance - 25% Original Diet - 75%
Day 3	Advance - 50% Original Diet - 50%
Day 4	Advance - 50% Original Diet - 50%
Day 5	Advance - 75% Original Diet - 25%
Day 6	Advance - 75% Original Diet - 25%
Day 7	Advance - 100%

14 Day Transition

Day	Ratio (volume)	Day	Ratio (volume)
Day 1	Advance - 10% Original Diet - 90%	Day 8	Advance - 50% Original Diet - 50%
Day 2	Advance - 10% Original Diet - 90%	Day 9	Advance - 50% Original Diet - 50%
Day 3	Advance - 20% Original Diet - 80%	Day 10	Advance - 60% Original Diet - 40%
Day 4	Advance - 20% Original Diet - 80%	Day 11	Advance - 70% Original Diet - 30%
Day 5	Advance - 30% Original Diet - 70%	Day 12	Advance - 80% Original Diet - 20%
Day 6	Advance - 30% Original Diet - 70%	Day 13	Advance - 90% Original Diet - 10%
Day 7	Advance - 40% Original Diet - 60%	Day 14	Advance - 100%
